

Standard Product Specification

| Features | Control Value |
|---------------------------|----------------------------|
| Nitrogen (N) | Approx. 2% |
| Phosphorus (P) | Approx. 2% |
| Potassium (K) | Approx. 0.5 – 1.0% |
| Organic matter | Not less than 15% |
| Shape and Size (diameter) | Granule, 2 – 5 mm. |
| Moisture | Less than 20% |
| pH | Between 5.5 – 7.5 |
| Heavy metal | Comply with IFOAM standard |

Granular Shape

- Note: 1. Nutrition varies subject to raw materials used
2. Different proportion of N:P:K can be produced by changing raw materials and quantity.

Compliance with IFOAM Standard

| Heavy Metals | Control Value (ppm) |
|--------------|---------------------|
| Arsenic | 15 |
| Cadmium | 20 |
| Chromium | 1,000 |
| Copper | 400 |
| Lead | 250 |
| Mercury | 2 |
| Nickel | 100 |
| Zinc | 1,000 |

Macro and Micro Nutrients for Plants

Macro Nutrients

- Nitrogen
- Phosphorus
- Potassium
- Calcium
- Magnesium
- Sulphur

Micro Nutrients

- Iron
- Manganese
- Boron
- Molybdenum
- Copper
- Zinc
- Chlorine
